

# Who knows you better?

ACEC  | Retirement Trust

*A retirement plan for engineers...by engineers.*

Looking at all the Trust had to offer...we felt the benefits to our firm and our employees were simply too great to ignore.

Terry F. Neimeyer

Chief Executive Officer  
KCI Technologies, Inc.

▶ ACEC RT provides a full spectrum of investment options and retirement plan services for ACEC members.

“Over 225 firms and 13,766 participants take part in all the Trust has to offer.”

Keith Swaffar, Executive Chairman of NTH

By taking advantage of the cost savings that result from our economies of scale, we can offer ACEC members savings on administrative fees, lower investment fees and expanded protection within the guidelines of the Employer Retirement Income Security Act, ERISA.

We provide our members with flexible retirement options and the ability to make adjustments along the way. We can analyze your current program and customize a program to fit your specific needs with features like Safe Harbor, Tiered Profit Sharing and Roth 401k. We offer employee education, proactive plan design and a diversified competitive cost investment line-up with fund families such as Allianz, American Funds, Columbia Funds, INVESO, PIMCO, Vanguard, and more.

► To offer valuable services at competitive prices, we've established relationships with industry professionals specializing in retirement options.
